Residual global order information across k
unresolved global order $B_k(S)/B_1(S)$ (%)
local encoder order k
Catalytic enzymes
Receptors, channels and transporters
Other globular and cellular proteins
C2H2 zinc-finger regulators
Structural tandem-repeat proteins
Segmental-duplication arrays
Unresolved tail $\kappa(S) > k$ by functional class
proteins with $B_k(S) > 0$ (%)
local encoder order k
